

# MOBILE GANTRY CRANE

## DESCRIPTION & FEATURES

Our portable gantry cranes are engineered to provide a versatile lifting solution tailored to your specific requirements. With a capacity of up to 20 tonnes, these cranes are designed for maximum durability and adaptability, ensuring seamless integration with both electric and manual chain hoists. Built on a custom-order basis, our gantry cranes cater to a wide range of applications, from heavy-duty industrial tasks to lighter, more precise operations. Whether you need a reliable solution for indoor or outdoor use, our cranes offer superior mobility, strength, and ease of assembly, making them the ideal choice for any lifting challenge.

**WARNING**

Never exceed Working Load Limit
